

Homebuilders Technical Forum

— **Saturday, July 15** —

Thinking of building your own hovercraft? Building one now? Hoverally is the best event in the Nation to gather information, answer questions and gain the knowledge necessary to successfully build your hovercraft. HCA members have always been open to sharing their build experiences. It can be enlightening just to have a look at others construction methods.

If you have more specific questions, you are welcome to join us **Saturday July 15, 11:00 a.m. in Paradise Cove**, the HCA will sponsor a homebuilder's technical forum where anyone building a hovercraft or looking to build a hovercraft can have their questions answered. Travis Wilkey & Nick Sanquist, two of the nation's most experienced homebuilders, will guide you through the process and answer any questions you may have.

Homebuilders and others interested in attending, please register for the HCA event online. Also, send us an email to let us know your interest in attending the Homebuilders Technical Forum and if you have any questions, you would like answered. We will do our best to accommodate you.

More information will be provided at the registration / check in tent onsite at Hoverally '23.
